Faith, faith in ourselves, and faith in God, this is the secret of greatness.

---- Swami Vivekananda

The prison hospital Prisoner: Look here, doctor! You've already removed my spleen, tonsils, adenoids, and one of my kidneys. I only came to see if you could get me out of this place! Doctor: fam, bit by bit.

GO AHEAD

When things don't go right, When there is no ray of light. And its too hard to survive. TELL YOURSELF - go on, this is life!

When there is composition to face, When you are logging behind in the When you lost faith in god. When you are betrayed by a fraud TELL YOURSELF - go on, this is life

on others don't respect you, on you are not among the admire on all you are sure about, is confu LYOURSELF - go on, this is life

When your destination is miles apart.
When you don't know from where to start
When all you see around is pain.
When all your efforts are in vain.
TELL YOURSELF - go on, this is life:

Even though all this happens. Just have faith in self. Fece the life. be happy Things will surely change one day BECAUSE AS SAID - go on this is life:

MEDI-SKETCH

Clowing Tumors

Ast year(2011), an experimental technique to make brain tumors glow began testingin Elk trals, and could soon be used to aid surgeons across the country. Darticipants will receive a treatment called 5-amino-levulinic acid, which makes the tumor glow under AP light during surgery. The glowing edges will enable surgeons to remove it more accurately. A drug soaked wafer will then be placed in the remaining cavity, slowly releasing chemotherapy drugs over 4 to 6 weeks and killing any remaining cancer cells.

FACE TO FACE AFC ASECEADAM

>> You can see a condle flame from ss Kilometres on a clear dark night. >> You can hear the lick of a watch from smotres in vory quiet conditions. >> You can taste one gram of salt in sso liters of water (2001 M). >> You can detect one drop of perfumed air diffused throughout a three-room

>>You can detect the wing of a bee falling on your cheek from a height of one centimeter.

માટે આગળ વચ્ચે. પ્રતિકનું શુંગર અંગારાની કેમ ધગધાગતું કનું,તેની અવશ્ય જોતા તેને અર્કો લાવવામાં પણું મોડું શઇ ગયું કોત તેમ લાચ્યું. પ્રતિકની સાશે આવેલ તેના સ્વજનો પાસેશી કેસની વિગતો લેતા જણાયું કે ઘણા સમચશી તાવ આવતો કતો.માશાના ભાગે

કળતર અને શરીર પણ ખુબ જ તટુનું કતું. અઠવાડિયાશી બે ચાર જગ્યાએથી દવાઓ પણ લેવામાં આવેલ કતી. પ્રતિકની શારીરિક તપાસ ઝડપથી પૂર્ણ કરી તેના લોકીના નમુના લઇ અમે. તેને લેબોરેટરીમાં મોકલી આપ્યા પ્રાથમિક સારવાર શરૂ કરી મેં પ્રતિકની માતાને

ફેચાધારણ આપીને અમારાશી બનતો શ્રેષ્ઠ પુચત્ન કરવાનો વિશ્વાસ આપ્યો. મેં લેબીરેટરીના ડોક્ટર સાથે લોકોના રીપોર્ટ અંગે વાત કરી મને જે લાગતું હતું તેનું

રીપોર્ટ દારા સમર્થન મળ્યું. પ્રતિકને ઝેરી મેલેરિયા થયો ફતો અને તેના કોમ્પ્લીકેશનના કારણે તેની આ ફાલત થઇ ફતી.અમે પ્રોટોકોલ પ્રમાણેની દવાઓ ઇન્જેડ્શન દ્વારા તેને આપવાનું ચાલુ કર્યું.સામાન્ય રીતે આ દવાઓથી તરત જ દર્દીની પરિસ્થિતિમાં સુધારો

જણાતો કોચ છે.પણ પ્રતિકના કિસ્સામાં તેમ ન બન્યું. બે દિવસ ને અંતે પણ તેની સ્થિતિમાં કોઈ કરક ન જણાવો. પ્રતિકના ખાટલાની પાસે તેની માતા છેલ્લા ત્રણ દિવસથી આધાતમાં

કતી.જાણે 'પથ્થર' જ ના બની ગઈ કોચ.તે પોતાના દીકરા પાસેથી જરા પણ દુર નોફતી

The Additional Dean is to college what the Vice President is to country.

On the behalf of Prashaman, Nilkhil Ashita and Kunal (:nd-ist students and editors) had a brief talk with Dr. PranayK.Shah.

PRASHAMAN: Having been the Additional Dean of such prestigious institute, how has the journey been so far?

Dr. PKS: My Journey started here as a medical student in 1978 means before 14 years. Since last 3 years, I am working as the Additional Dean. I feel honoused.

Dr.PKS: My journey started here as a medical student in 1928 means perceived by years. Since last years, I am working as the Additional Dean. I feel honoured.

PRASHAMAN: You are also the Member Secretary of Medical Admission Cell. Could you tell us a bit about the UG admission process in Gujarat, especially boys vs.girls ratio in admission?

Dr.PKS: Since last 19-9 years, I am associated with this process. It is now more student friendly than before Even parents are also happy with it. The data shows that in medical admission, boys and girls are almost equal in number, I other branches like nursing, physiotherapy and homeopathy girls are more PRASHAMAN: Being the part of Anti-ragging committee, could you shad some light on the kind of help it offers to first year students?

Dr.PKS: Before the Anti-ragging committee comes in picture, at the time of admission, shwelms and parents have to sign on the declaration against ragging as per Supreme Court's verdict and instructions. We have included this declaration in the admission form. The Tirst year Students, at the time of first day in college are counseled and informed about it. Students are also saked to contact teachers. Anti-Regging Committee members, and senior teachers or even directly to the Deen about their problems.

PRASHAMAN Recently a new natrance exam system. NET has been introduced. What are your views on NET and the computerized exam system. Dr.PKS: from the cademic year 1911-1911. NET Instantal Eligibility cum Entrance Test is introduced by central government and the MCI for admission in medical and dental colleges. Students have to qualify in this thandard and NET exam as per MCI norms. However for the admission, the meril list will be prepared on the basis of NET marks only.

PRASHAMAN. Being a Microbiologist, what are your views on the development of microbiology as the subject and its role in the diagnosis of the diseases:

assauses.

TP-PKS: In our times, Pathology . Microbiology and Blochemistry used to come under one roof. Today these are separate subjects for post-graduation. However, looking to this are of emerging and re-emerging diseases, bio-terrorism and antibiotic resistance. I think microbiology has important role

in patient care.

PRASHANAN: Could you please enlighten our readers regarding the scope of Microbiology as a subject and as a career option.

DrWS: Looking to the admission choice of students. I think the importance of Microbiology is not justified but in the developed; countries, even a clinician decides antibiotic policy after discussing it with the Microbiologist and these

Microbiology is not justified but in me developed courners, even a minuscular decides antibiotic policy after discussing it with the Microbiologist and these days aren't fer for our country too.

PRAS+IAMAN Whet has been your experience regarding BJ Beats: What's your expectation from the students in future for BJ Beats: DPRS for socurity reasons, cultural activities were halted at this college since many years, but I feel that students in medical field have a hetic schedule so programmes like BJ Beats should happen once a year PRAS+IAMAN. As the Additional Dean, you have visited the hostel many times. What are your suggestions for improvement of sanitation and repair work?

DPRS for the visited the hostels many times. Frankly speeking, not only in BJ medical college but at various teaching institutes, hostels require much improvement as far as basic facilities are concerned. I wish that after completion of the renovation project of civil hospital campus, we will have our dream hostel building as well the facilities available in it.

PRAS+IAMAN How do you evaluate your work as an Additional Deann

DPRS is an trying to give justice to my duty. I want to know your reactions to my efforts. If you have any suggestions please contact me in my office at any time.

time.

PRASHAMAN: Finally where do you see BJMC in the coming future?

Dr. PKS: BJMC has a glorious past. Looking at its present activities ar it will be a shining star in the galaxy of teaching institutes in future.

PRASHAMAN: Thank you sir for your valuable time.

Dr. PKS: It's my pleasure.

REDHAM PATEL

Oh My God! [OMG]-Movie Deview

"Only a true atheist can become a true theist"

The idea of taking 6od to the court is not one without its own risks. OMG however does complete justice to the idea, more so because of its logical and witty script, dialogues and its ability to make your abdominal muscles cramp due to constant humaur. Although its origin lies in the Australian movie 'The man who sued 6od' and Paresh Rawal's Gujarati drama 'Kanji virudhi Kanji', 'the movie does not lose its own essence.

The plot revolves around Kanjibhai Patel, an antique shop owner specializing in the sale of idols of 6ods and 6oddesses. He treats it strictly as business and has no qualma about playing with people's guilibility to line his own pockets. As one would expect in a bollywood movie, even 6od reaches the limits of his patience and decides to strike back in the form of an earthquake which levels down only his shop leaving all surrounding structures standing. The insurance company refuses his claim calling it an act of 6od. What follows is a hilarious clash between Kanjibhai, the insurance company and 6od's so-called earthly representatives.

Inlianious closh between Kanjibhai, the insurance company and God's so-called earthly representatives.

This finely crafted plot has the strength to compel the audience to give serious thought to matters like religion and supersition. Apart from the plot, the actors' performances make this filling a must watch. Paresh Rowal keeps getting better and better with each movie while Akki renders the audience spellbound by his avatar of smart, nathark kanaiya which is tailor-made for him. Mithun Chakraborthy(in his enchanting style), Govind Namdeo(as aggressive Siddheshwar Mahara) and Poonan Jhawer(as the voluptuous Gopi Maiya) as "God's collectors" add the cherry on top of the jee. Mahesh Manjirekar makes a good 'bad lawyer.

With the constant bombardment of 'Godre's safe' and lawyer.

With the constant bombardment of 'Godre's safe' and lawyer.

Nevertheless, this film has a powerful yet lucid message that God does not live in stone idols, but in his creations. That is where one should look for him. It is depicted in a light script with withy direction. The movie shows that the relationship between God and Man is akin to that of friends and not at all resemblant to that of master and slave as people have been thinking since ages.
